Re: *Ex Parte* Communication
CC Docket 94-102

Dear Ms. Dortch:

On behalf of ATX Technologies, Inc., enclosed are copies of *ex parte* communications submitted to the staff of the Commission, specifically, Mr. John Muleta, Chief of the Wireless Telecommunications Bureau, Ms. Sheryl Wilkerson, Legal Advisor to Chairman Powell and Mr. Michael Wilhelm, Chief, Public Safety and Critical Infrastructure Division of the Wireless Telecommunications Bureau. The letters address issues raised in the above docket.

Respectfully submitted,

John E. Logan

September 2, 2004

Mr. John Muleta
Chief, Wireless Telecommunications Bureau
Federal Communications Commission
445 12th Street, SW
Washington, D.C. 20554

Dear Mr. Muleta:

This letter addresses the standards recently adopted by the Association of Public Safety Communications Officials, International (APCO) relating to communications between telematics call centers and public safety answering points (PSAPS). ATX Technologies, Inc., the second largest provider of telematics technology and services, has determined to embrace and adopt these APCO standards.

ATX believes that the standards do much to move forward the fundamental objective of getting the right resources as expeditiously as possible to the telematics-equipped motorist facing an emergency. This two-year effort involved a range of public safety agencies and the automotive telematics industry. A copy of the standards can be found at APCO's website, www.APCOINTL.org. In the Commission's proceeding addressing wireless emergency calling, CC 94-102, ATX committed to working with public safety agencies to further the objective embraced by the standards and was honored to participate in the APCO effort. A copy of our press release announcing our action is enclosed.

Please call upon me if you have any questions or comments. ATX is committed to effective emergency response and commends the Commission for its leadership in the area.

Sincerely,

A handwritten signature in black ink, appearing to read "Gary Wallace", written over a large, stylized circular flourish.

Gary Wallace
